Part B: Review of the previous academic year

Review of Strategy 2024 -2025

Data

80% of the PP children reached the expected standard in the Year 1 phonics screening. This is an improvement of 11% on the previous year. This is also above the national average for all children.

Key Stage 2

44% of the PP children reached the expected standard or above in reading, writing and maths at the end of Key Stage 2. This was a significant decrease on 2024 where 69% of the PP children reached the expected standard across all areas.

56% of the PP children reached the expected standard or above for reading.

56% of the PP children reached the expected standard or above for writing.

44% of the PP children reached the expected standard or above for Maths

44% of the PP children reached the expected standard or above for GPS.

Outcome	Impact
To improve the attendance of all children in school particularly those identified as disadvantaged and to reduce the level of persistent absenteeism to below 19%.	Attendance has continued to be followed up effectively across the year by both attendance officer and SLT. Clear procedures in place for attendance are followed. Attendance meetings between officer and headteacher have taken place on a monthly basis and tailored support has been put in place for identified families. Attendance for PP ended at 93.1% compared to all children 94.1%. Attendance for those entitled to PP is up by 1% compared to the previous year. Persistent absentees ended at 16.1% and pupil premium 24.6% which was below the national averages and significantly better than the previous year. Those entitled to PP improved by 3.1% compared to last year. Attendance will continue to be a focus for 2025/26 and the continued reduction of persistent absenteeism.

<table>
<tr><td>For children who require extra support or have fallen behind to have access to quality support and intervention.</td><td>Nurture provision has continued throughout 2023/24 supporting children across school with their SEMH needs 28 children in total have accessed the provision over the course of the year for up to two terms. 17 of these being children who qualify for pupil premium. The ability to provide this support has helped children with their social emotional needs. Children with difficulty regulating now have the strategies they need to support them regulate during their everyday. It enabled children in year 6 to cope with completing their end of key stage tests and achieve good progress across all areas.

School have also delivered a range of group intervention to children who need support with their emotions and regulating. This has been delivered by experienced teaching assistants.</td></tr>
<tr><td>For all children to have made progress from their individual starting points in reading.</td><td>76% of the pupil premium children reached at least the expected standard for the end of key stage 2. This was above our overall result of 71% and significantly higher than 2023 where we had 43% of the PP cohort pass.
Significant improvement has been made to the teaching of reading over the course of 2023/24 across school. A new approach was implemented into KS2 in the spring term helping to focus on key reading skills.</td></tr>
<tr><td>For all children to have access to different experiences as part of their learning and the opportunity to attend after school activities.</td><td>All children have continued to be provided with experiences and opportunities across the year to further enhance their learning. Trips have also included residentials for children across years 2, 3, 4, 5 and 6.

Children have continued to access after school clubs free of charge for all children. Clubs have included football, music, gymnastics, construction, space, multi skills, dance, panto craft.
